General Instructions, Specifications and Definitions

The following General Instructions, Specifications and Definitions apply to each data request.

1) General Instructions

- a) Each response shall be made under oath, in the form of one or more affidavits signed by an authorized officer or agent of the respondent. The officer or agent shall state under penalty of perjury that the response has been prepared under his or her supervision and control and that the response constitutes a true, complete and accurate response to the request, to the best of his or her knowledge, information and belief. The response shall list the names, employers, titles and addresses of each person acting at the officer's or agent's direction in preparing the response.
- b) In response to each data request, provide information available from corporate and individual files. Where a data request is directed to a particular respondent, and an affiliate, subsidiary, contractor, or agent acts on behalf of that respondent or provides any support, technical or ancillary service relevant to the data request, the respondent shall include the information from the other party and indicate the source of the information.
- c) Each written response shall designate the respective data request and subpart or portion of the item under which it is provided. The data responses shall be provided in numerical order, and in a clear and concise fashion.
- d) Responses shall indicate which documents relate to which data request.

NOTE: If respondent claims the attorney-client privilege, the log shall also indicate whether the communication claimed to be privileged was made by the attorney or the client, and whether the communication or document has been communicated to any person other than the attorney and client involved. If the communication claimed to be privileged has been so communicated, identify such third person(s) by name and relationship to the client and the attorney, and indicate the date of such communication. Produce the non-privileged portion(s) of the document or information, if the privileged portion of the document or information is capable of being excised, so that the remainder is no longer privileged.

Provide the names of all persons who have knowledge of the loss, destruction, or disposal of the document. If respondent claims that the destruction occurred pursuant to a document destruction program, identify and produce a copy of the guideline, policy or manual describing such program, and any correspondence or communication relating to the destruction.
- g) If any documents responsive to any data request are in existence but not in the custody, possession or control of the respondent, identify each such document and provide its present location and custodian.
- h) Each data request is continuing in nature and requires supplemental responses as soon as further information is located or obtained that is responsive to the request.
- i) The terms “and” and “or” shall be construed either disjunctively or conjunctively whenever appropriate in order to bring within the scope of each data request any information or document that might otherwise be considered to be beyond its scope.
