Subject: FERC OE Data Request for Bryan Hansen
Attachments: Data Request to Bryan Hansen 2014-11-19.pdf

Dear Mr. Hansen,

Per our telephone discussion yesterday, attached please find a document containing certain questions pertaining to the events of 2010. As noted, we believe that you are a material eyewitness to certain events of that summer, and we have no reason to believe that you or your partners engaged in any of the conduct implicated in this investigation. We sincerely appreciate your cooperation in this matter, and we hope to minimize any disruption that this may cause.

We understand that you have elected not to be represented by counsel at this time; should you change your mind (as is your right), please let us know so that we can direct our correspondence to him or her. In any event, please note that you should sign and submit a declaration (appended to the end of the attached PDF document) along with your responses, verifying that your responses are truthful.

We also understand that this "Data Request" appears to ask a lot of questions, but on closer examination you will see that they relate to the broad topics we mentioned on the phone. Should you prefer to discuss some of these matters with us before you send your written responses, please let us know and we'll be happy to set up a phone call.

Finally, please do not hesitate to contact me should you have any questions.

Best regards,
-James
